REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

As an authorized International Baccalaureate Primary Years Programme School, Rosewood Elementary is part of a global network of schools committed to developing the personal, intellectual, emotional and social skills students need to live and work in a rapidly globalizing world. We have purposefully integrated the state and Common Core standards into six themes with thirty-six unit planners encompassing all students from K4 to grade 5. As a component of IBPYP, all students are learning French, with students in grades 3-5 following the KITE-LL daily language program. The Learner Profile is a major component in our school day and is used for character development.

The school focused on developing a positive climate this year. To that end, monthly parent workshops, parent coffee hours, family food events, differentiated staff development opportunities and a new approach to our discipline and Response to Intervention programs were implemented and monitored throughout the year. The use of bi-weekly parent emails, the school's social media sites, live streaming of PTO/SIC meetings and electronic surveys increased participation from parents. The school implemented a summer reading initiative that included weekly tutoring sessions, access to check out materials and taking iPads to local parks to play, read and practice math skills.

Data was collected from multiple sources such as Waterford in grades K-2, Measures of Academic Progress (MAP) in all grades and common assessments created by grade level teachers. Progress monitoring allowed us to provide targeted support in real time to enhance our interventions. Additionally, data was used to provide balanced classes so that teachers could more readily implement small group instruction and differentiation techniques. Instructional coaches met regularly with each grade level to focus on math and reading strategies and the workshop model.

The Exhibition theme this year was "Human and Animal Rights." Students worked together to research how the rights of these two groups intersect and overlap. Groups took on projects to further their knowledge and raise awareness in the community. Projects included a 5K race held at the school, writing a book on pet care and distributing to "no kill" shelters to give to adoptive families, creating outdoor learning spaces, setting up protected animal habitats around the school grounds, and working with the Red Cross on affordable vaccines. Students created artwork to showcase their learning in the form of new ceiling tiles, painted rock walls, and a dramatic interpretation of the importance of rights.
